DON'T BE TIED TO A POWER SYSTEM - DRILL ANYWHERE

Gasoline Powered Core Drill Machines

Drill Fast with Consistant Quality

Save Time and Increase Profit Potential

Easy-to-use stand-alone systems

K-424-G15

24-inch Bit Diameter Capacity

*Drills small and large holes
with equal ease and speed.*

K-616-G15

16-inch Bit Diameter Capacity

8-inch Auger Capacity

*Dual drilling capabilities. Quick change
over from drilling to augering.*

**Pair these drills with our portable
water options for a complete
mobile drill system**

Gasoline Powered Core Drill Machines Save Time and Increase Profits Easy-to-use stand-alone systems

- Quick set up - minimizes time required for each job
- Longer bit life with very stable drilling platform – reduces job costs
- Drills faster with gasoline power – get the job done in less time
- Stand-alone system requires no additional power – field independent
- Heavy-duty, dual-precision ground columns and tenzloy precision machined carriage assembly – years of dependable performance
- Smooth-precision ball-feed screw system – easy one operator use
- Designed for large and small hole drilling, plus auger capabilities* – one machine does the work of two
- Accurate drill placement and easy alignment of drill platform

K-424-G15 includes:

Drill stand, 15 HP gasoline motor, electric start, dual-drive shafts, 24-inch bit diameter capacity, water swivel assembly, 21-inch drilling depth.

K-616-G15 includes:

Drill Stand, 15 HP gasoline motor, electric start, 16-inch bit diameter capacity, 8-inch auger capacity, water swivel assembly, 21-inch drilling depth.

Optional power source available: Hydraulic (21 to 48 HP per customer requirement)

* Auger capabilities on K-616-G77 units only.

Model #	Horse Power	Cycle	Max Bit Diameter	Max Auger Capacity	Approx. Weight
K-424-G15	15 HP Gasoline Electric Start	4	24"	n/a	340
K-616-G15	15 HP Gasoline Electric Start	4	16"	8"	340
